

Biodata

Ms. Rajani Tumane
M.Sc (Biochemistry), Perusing Ph. D. (Life Science)
Biochemistry Department.
Email: rajo_tumane@yahoo.co.in

Total Work Experience: 7 years

Area of Interest: Biomarkers of occupational diseases

She is working as a team member in two research projects recognized by S & T, MOM, GOI, and other by University Grants commission. She has actively participated in RSMML cliental project. Dissertation/ short research projects of nine M.Sc. students (Biotechnology) of assisted by her. She is also associated Editor of "Aarogya Khanik" Newsletter of NIMH. She has published three posters in International and National conferences. She has published two papers in National journals from NIMH. She is expert in electrophoresis technique and further to develop proteomics technique at NIMH. Currently she is perusing Ph.D. (Life Science) Titled "Delineation of risk in population occupationally exposed to copper using Biomarker and proteomics" from RTM University Nagpur. She is member of Society of Biological Chemists.
